

Paws for Responders Comfort K9 Program

Support your officers' emotional wellness in times of crisis

Connect to the public with an officer program that generates community support

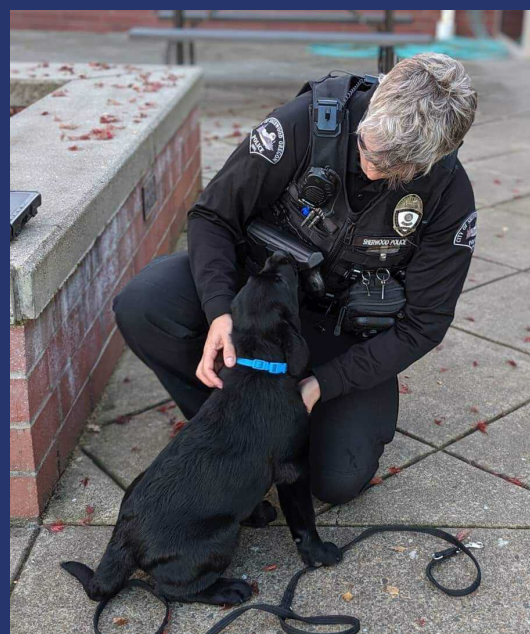

Create camaraderie among your officer, staff, and volunteer teams

Receive a fully trained dog at the end of the program who is able to dedicate years of service to your facility

Prevent officer burnout and turnover within your department

Bring in an [adorable] asset that consistently produces a positive learning and working environment

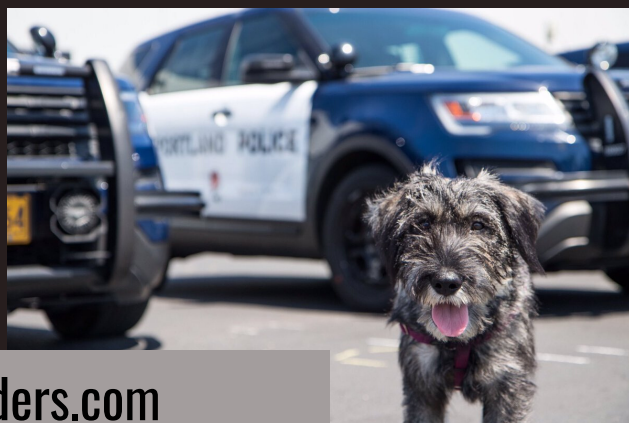

The program designed with Emergency Responders in mind

Paws for Responders is currently the only company solely focused on providing facility therapy dogs for emergency responder facilities.

Every puppy is specifically chosen and trained to best meet the needs of the individual facility.

This is a revolutionary, one of a kind program that caters to the unique needs of our emergency responders. We proudly provide departments with a dog that spends their workday, every day in the facility where they are needed the most.

Benefits of a Comfort K9

Impact of Emotional Wellness Programs

Officers face trauma on a regular (sometimes daily) basis. This trauma can impact their physical health, emotional health, and mental health, as well as decrease productivity and increase rates of burnout, turnover, substance abuse, and even suicide.

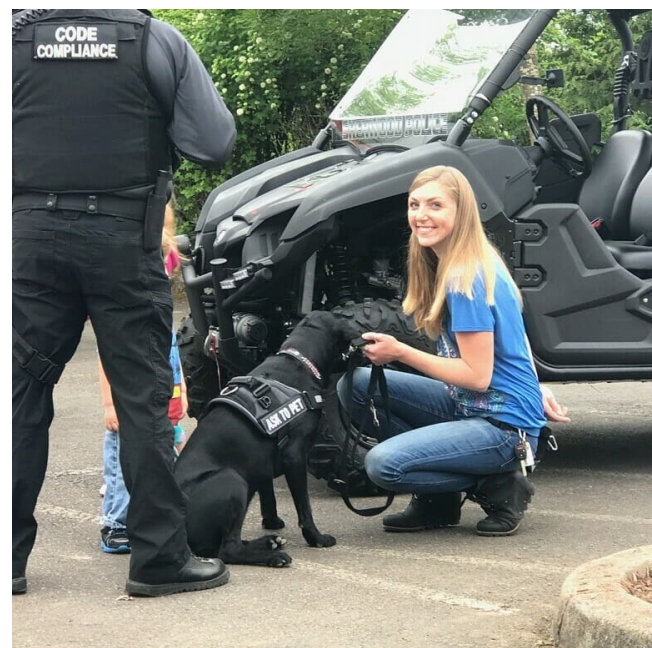

Officers need an emotional support system to cope with the gravity and difficulty of their jobs; can you afford not to add to your officer emotional wellness programs?

Raising & Training the Puppy

What makes this program special?

At Paws for Responders, we believe that watching the puppy develop and grow into their role as a Comfort K9 is an important part of the bonding process and long term success of our K9-Handler teams.

Our focus is to work with the puppies and Handlers through updated, science-based, positive reinforcement methods. We strive to use the least intrusive, minimally aversive approach when working with our human team members and our K9 team members, and throughout our program we always pair ethics and empathy with effectiveness.

We are proud to teach humane handling and compassionate communication

There will always be hardship and trauma occurring around the world, and while puppies won't fix everything, they can definitely bring some light and love during difficult times.
